In the area of sports, Asseco's activities are arranged on the basis of long-term action plans and the following assumptions:

The Supervisory Board considers the charity and sponsorship activities undertaken by the Company to be rational and socially beneficial, not only because they provide direct financial or in-kind support to people in need, including especially sick or disabled children living in an orphanage, but also make a positive contribution to the development of sports in Poland. The Supervisory Board believes that such an attitude builds a positive company image and inspires confidence to Asseco Poland S.A., also as an institution abiding by the principles of corporate social responsibility.

5. Brief assessment of Asseco Poland's standing in the year 2015, including an assessment of the internal control, risk management and compliance systems, and the internal audit function.

This section of the Supervisory Board Report contains an assessment of the Company's standing which is provided by the Supervisory Board in accordance with the requirements of principle II.Z.10.1. of the "Best Practice for WSE Listed Companies 2016".

In order to make a proper assessment of the Company's standing in 2015, the Supervisory Board got familiar with and carefully analyzed, among others, the below mentioned parameters relating to the core business areas of Asseco Poland S.A.:

- sales revenues reached PLN 1,313 million in 2015;
- operating profit amounted to PLN 180.6 million, while the operating margin equalled 13.8%;
- EBITDA amounted to PLN 234.8 million, while the EBITDA margin equalled 17.9%;
- net profit amounted to PLN 257.1 million, while the net profit margin equalled 19.6%;
- total assets amounted to PLN 5,625.2 million;
- cash flows generated from operating activities before taxes amounted to PLN 324.5 million;
- cash conversion rate equalled 153%;
- debt/equity ratio equalled 3.9%.

Moreover, the Supervisory Board got acquainted with the factors that exerted a significant adverse impact on the Company's annual results:

1. Major internal factors observed in 2015:

- recognition of an allowance for trade receivables from Mostostal Warszawa, in the amount of PLN 7.7 million;
- withdrawal by the Center for Health Information Systems from the agreement for development of the P1 system that was executed in a consortium with Kamssoft S.A.;
- a contractual fine imposed by the Upper Silesian Municipal Transport Union in the amount of PLN 13.3 million;
- losses incurred on the following projects: Silesian Public Services Card for the Municipal Transport Union, HR System for BGK Bank, and Zefir System for the Ministry of Finance.

2. External factors:

- increasing salary pressure and expectations of employees, particularly in the IT industry;
- delays in the announcement of tenders related to EU funds.

With regard to the above, despite hardly predictable one-off events that took place in 2015 and were the primary cause of reporting a lower than budgeted amount of net profit, the Supervisory Board has concluded that the Company achieved satisfactory results in many segments of its operations: in the production area – completion of the development of new products, including an innovative e-banking solution matching the latest omnichannel trends; in the project execution area – completion of complex projects for the largest enterprises, including the implementation of a billing system for Orange, centralization of billing systems at Enea, as well as data migration into the central billing system at Tauron Group.

The achievement of such good results, despite the existing difficulties, was possible thanks to the efficient organization of the Company's management and control systems, maintenance of cost discipline, provision of high quality services, as well as the competence and commitment of employees.

Favourable economic ratios achieved in 2015 are the basis for ensuring a safe position for the Company's operations in the next year.

Following an in-depth analysis of the financial statements and results of Asseco Poland S.A. for 2015, the Supervisory Board has made a positive assessment of the Company's financial condition and future business outlook.

The Supervisory Board, acting through its Audit Committee, monitors the quality of the internal control system as well as adequate performance of its functions on a regular basis.

The Internal Audit Department adheres to the international standards for the professional practice of internal auditing. It continually gathers and analyzes information on the activities of individual business units as well as from designed control mechanisms. This provides the basis for risk assessment performed together with business units. Subsequently, the schedule of planned audits is created based on the results of such risk assessment. During an audit, this Department evaluates the effectiveness of implemented controls. The Company operates a system of functional separation and division of tasks in the area of financial reporting.

Having conducted the said supervisory activities and having made a reasonable assessment, the Supervisory Board provides assurance that the internal control system, treated as a whole, is compliant with the regulatory requirements.

With regard to the above, the Supervisory Board is hereby expressing its gratitude to the Management Board and employees of Asseco Group for a consecutive year of their commitment and effective work. The Supervisory Board also appreciates the efforts made by the Management Board in order to gain a high position among IT companies in Poland as well as to strengthen the Asseco Poland brand awareness in the Polish market. These activities have also been reflected by awards and distinctions won by Asseco Poland S.A., especially as a producer of software.
